India's largest grid connected solar farm

Moser Baer Photo Voltaic (MBPV) has signed a Memorandum of Understanding (MoU) with the government of Rajasthan to set up a 1 – 5 MW solar power project in the state.

The project will be the largest grid-connected solar farm in India and entail an investment of around Rs 100 crores (US\$25 million).

Moser Baer Photo Voltaic says it plans to emerge as a leading PV equipment manufacturer by implementing 500 MW of capacity by FY10 through a mix of technologies in the crystalline silicon, concentrator and thin film sectors.
